

MiPAC III

The MilPAC III is a transportable, deployable workhorse for C4ISR / C5ISR, GIS and Geospatial applications. Rugged aluminum and composite construction provides survivability in deployed environments 24/7 and the ruggedness to withstand transport handling on wheeled and tracked land vehicles, fixed and rotary winged air vehicles.

Fully Rugged Construction

The MilPAC III is built to withstand harsh environments, transport handling on wheeled and tracked land vehicles, and transport handling on fixed and rotary winged air vehicles. Its rugged aluminum and composite construction provides survivability in deployed environments 24/7.

Serious Power

In addition to its highly rugged build, it packs some serious computing power with 3 full HD displays and high efficiency thermostatic convection cooling and airflow systems into an easily transportable package.
